PATIENT STORIES

I had a lipoma on my back which was 4cm for over a year...I was skeptic to do surgery because I'm a pageant girl and have held two titles and intend on competing in 2016.

I've seen several specialist and none was as caring as Dr. Jan Hochtritt. He made me feel confident and comfortable. He understood my needs and how getting a scar would affect my intention to compete next year.

After my surgery, Prosurigicare monitored my recovery and it's impossible to tell I even had surgery!
